Lean manufacturing or lean production, often simply "lean", is a systematic method for waste minimization ("Muda") within a manufacturing system without sacrificing productivity, which can cause problems. Lean also takes into account waste created through overburden ("Muri") and waste created through unevenness in work loads ("Mura"). Working from the perspective of the client who consumes a ...

Risk Assessment - Niwot Ridge

Abstract. Sustainability is a critical business focus, and sustainable project management requires looking at projects in a whole new way. For too long, project managers have worked on their projects as if they were islands, unrelated to organizational strategy and governance and unrelated to the community at large.
