Statistics show that per mile driven older drivers are over-represented in fatal accidents. Due to their physical frailty they are more likely to be injured in an accident and more likely to die of that injury.

Old age and driving - Wikipedia

As a form of biological asymmetry, fluctuating asymmetry (FA), along with anti-symmetry and direction asymmetry, refers to small, random deviations away from perfect bilateral symmetry. This deviation from perfection is thought to reflect the genetic and environmental pressures experienced throughout development, with greater pressures resulting in higher levels of asymmetry.

Fluctuating asymmetry - Wikipedia

Abstract. Policy interventions that affect or are mediated through the family typically assume a behavioural response. Policy analyses proceeding from different disciplinary bases may come to quite different conclusions about the effects of policies on families, depending how individuals within families behave.

Theories of the Family and Policy (WP 04/02) | The

Personality psychology addresses views of human nature and individual differences. Biological and goal-based views of human nature provide an especially useful basis for construing coping; the five-factor model of traits adds a useful set of individual differences.
